

Course Preparation

Requirements

13 Aug 2026

- **DBeaver**
- **Java 21 or higher**
- **OpenJDK 23.0**
 1. <https://dbeaver.io/download/>
- **Campus VPN: Cisco Secure Client**
 1. <https://tdx.unc.edu/TDClient/33/Portal/KB/ArticleDet?ID=30>
 2. **You need VPN to access**
 - i. **GitLab Services**
 - ii. **F5 Load Balancer**
 - iii. **Grouper**

Connect to a new MySQL Database

You must be connected to the Campus VPN, or on EDUROAM to connect

- Click the  icon to create a new connection OR
- From the Menu click Database > New Database Connection OR
- Ctrl + Shift + N (Cmd + Shift + N on Mac)
- Choose MySQL from the database driver list
- **Settings:**
 1. **Server Host:** db2.ils.unc.edu
 2. **Port:** 3306
 3. **Database:** db2_onyen (example db1_aml14)
 4. **Username:** db2_onyen (example db1_aml14)
 5. **Password:** Emailed to each student (be sure not to copy trailing spaces)
 6. **Click:** 'Save password' > 'Test Connection' > 'OK' > 'Finish'

Getting Connected: Connect to Sakila.db

- **Downloads**

- sakila.db
 - <https://www.timestored.com/data/sample/sakila.db>
- duckdb-demo.duckdb
 - <https://www.timestored.com/sqlnotebook/files/duckdb-demo.duckdb>
- **Open DBeaver**
- **Create a New Database Connection**
 - **Choose SQLite**
- **Connect by: Host**
- **Path: Location of downloaded sakila.db e.g. C:\Downloads\sakila.db**
- **Click: 'Test Connection' > 'OK' > 'Finish'**
- **View Database Connection in the navigation pane**

Write Your First SQL Query in DBeaver

- **Open a New SQL Editor Tab**
- **You have several ways to open a new SQL editor tab in DBeaver:**
 - **Click the SQL Editor icon in the main toolbar**

- go to SQL Editor > New SQL Script
- press F3
- Type: `SELECT * FROM actor;`
- Execute the Query
 - Click the Execute SQL Statement button () in the toolbar
 - Or go to SQL Editor > Execute SQL Statement
 - Or go to SQL Editor > Execute SQL Statement
- View your results
 - If your query runs successfully and you see a results grid showing data from the actor table, congratulations! You're all set and ready for Introduction to Databases section of the course..
